Reasons for Allowance

1. The following is an Examiner's statement of reasons for allowance:

The invention as claimed distinguishes over the prior art of record through the combination of client connection request(s) generated in response to transaction requests with the further provision for serializing, logging, and routing transactions flowing from priority queues, specifically implementing a mapper which performs transaction distribution, logging, and routing to downstream process(es) based on the residency of transaction entries of a given predetermined priority within various priority queues. These features were persuasively argued by Applicant in the Response, received 7/28/2004, and this functionality is fully supported by the specification, inter alia, at Page 10, Line 30 through Page 12, Line 30, and Figures 4, 6(a), 6(b), and 7-8.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
